SUMMARY

I graduated from Our Lady of Fatima University Pampanga campus where i studied Bachelor of Science in Information Technology. While I was at university I worked part time for a Freelance Photographer. I spend a lot of time learning new techniques and actively help other people learn web development

To be able to contribute my knowledge and skills in my chosen field of work where I can use my strong interpersonal skills and my eagerness to contribute to a quality company. I am looking for meaningful career where I can achieve personal and professional growth.
